Training Manager:		Nick Dudding	- 0113 246 6330	nick.dudding@sth.nhs.uk

Evaluation of Glandular Cells in Cervical Samples

This day will cover the evaluation of glandular cells in Thin Prep cervical cytology samples. There will be a lecture to start the day, to outline the various cytological presentations of glandular abnormalities and their mimics. Current guidance with regards management and follow up will be discussed.

A workshop of cytology cases will be provided for individuals to review. Cases will be discussed at a multi-header session, which will consolidate the learning points covered during the morning lecture. The day will finish with a short Q & A session to clarify learning outcomes.

Course Tutor

Mrs Helen Burrell. South West Cytology Training centre. Bristol

Learning Outcomes

At the end of the session individuals should;

- To be aware of the cytological presentations of benign and abnormal glandular cells in Thin Prep samples.
- Be able to recognise and identify difficult presentations of endocervical dyskaryosis
- Be able to separate cases of endocervical dyskaryosis from their typical look-a-likes
- **Be able to improve both their sensitivity and specificity for endocervical lesions**

Cost:

NHS Participants attending from the North West, North East, Yorkshire and East Midlands regions will incur a £15 administration fee only

Others: £95.00.

Lunch, tea & coffee are included

Further details and an application form are available from our administration team;
