HPV. Its role in cervical carcinogenesis and how to detect it

A one day course that aims to give anyone involved in HPV testing an overview of basic cell biology, the role that HPV plays and the different techniques that can be used to detect it. The day starts with some basic cell biology to help individuals understand common terms and jargon. This is followed by a detailed, but understandable synopsis of the role of HPV in the aetiology of CIN and cervical cancer and after lunch an insight into the different ways we can detect HPV and a brief outline of the technology used. There will also be a short discussion about the efficacy and variations of the different kits and how this impacts on the results for HPV triage / Test of Cure etc. The course is ideal for MLAs or Cytology Screeners who are new to cell biology and the mechanics of HPV detection, but would also be of benefit for BMS who have been out of education for a while and are not comfortable with cell biology and how HPV testing actually works.

Venue:

This course is operated from our Wakefield site.

The centre is situated in a commercial site in Silkwood Park close to Junction 40 of the M1. We are 20 miles from Leeds Bradford airport, 13 miles from Leeds City railway station and just 2 miles from both Wakefield railway stations.

Should it be required accommodation is available adjacent to the Training Centre at the Ramada Hotel:

<http://www.ramada.co.uk/hotels/united-kingdom/yorkshire/ramada-wakefield/hotel-overview>

The faculty includes;

Ms Elizabeth Shore	BMS, Laboratory Medicine Sheffield Teaching Hospitals NHS Foundation Trust
Dr Alex Sargent	Clinical Scientist & HPV Lead Clinical Virology Manchester Royal Infirmary
Mr P Heptinstall	Consultant BMS Manchester and Sheffield Trusts NEPSEC

COURSE PROGRAMME

9:15	Coffee & registration	
9:30	Learning assessments	
9:45	DNA, Genes and Cells	Elizabeth Shore Sheffield
11:00	Coffee	
11:20	Aetiology, the role of HPV and results from HPV Testing in the Sentinel sites	Mr P Heptinstall NEPSEC
12:20	Lunch	
1:00	The basis of testing for HPV	Alex Sargent Manchester
1:45	Break	
2:00	An overview of the techniques that we can use	Alex Sargent Manchester
3:00	Questions and discussion	
3:15	Review of Learning Outcomes	
3:45	Finish	

Cost: £95; lunch, tea & coffee are included

*(NHS BMS Participants attending from North West, East Midlands and North East, Yorkshire and Humber NHS regions will incur a **£15** administration fee only).*
